

INDUSTRY COLLABORATIONS

Center for Technology Transfer and Commercialization (CTTC)
Office of the Vice Provost for Research and Innovation (OVPRI)

Who We Are

The Industry Collaborations team identifies, supports, and stewards corporate research and development partnerships across Vanderbilt University and Vanderbilt University Medical Center. Focusing on Life Sciences and Physical Sciences, our team cultivates collaborative research partnerships in a variety of industries.

How We Can Help

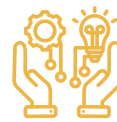

Our team supports industry R&D programs and research projects by working closely with core facilities, research centers, institutes, and faculty across Vanderbilt University and Vanderbilt University Medical Center.

Our goal is to maximize the effectiveness of each industry partnership by assessing your research needs along with the university's strengths, and identifying the best faculty fit for your R&D projects.

Strategic Research Partnerships

Develops strategic industry partnerships, builds robust corporate relationships, and discovers new strategic alliances.

Industry Sponsored Research Development

Drives sponsored research growth through proactive outreach and strategic engagement activities with industry partners.

Innovation Ecosystem Development

Engages with local, regional, and national partners by promoting university technology to advance regional economic development.
