Targeting obesity pathogenesis - Submission template

Supports the current call for proposals to connect the dots from pathology to therapeutic mechanisms for disease-modification in obesity to achieve sustainable weight loss beyond treatment. Access the public profile via the following link.

Thank you for downloading the Boehringer Ingelheim *opnMe.com* proposal submission template. Please enter the relevant details into the free-text fields provided.

Your responses should provide enough detail for our scientists to understand and evaluate your proposal. Overall, a document of 2 – 3 pages plus references should be sufficient. For further information, please consult our FAQ document on opnMe.com. Supplementary information can be uploaded in addition to this document and can be referenced within the proposal.
